PROFESSIONAL SUMMARY

Hardworking, detail-oriented professional with expertise in developing and implementing software solutions. Proven expertise in developing, testing and debugging high performing software solutions with a keen eye for detail. Skilled in object-oriented programming, web and mobile development, database technologies. Excellent problem-solving and communication skills and demonstrates a passion for learning and implementing new technologies.

SKILLS

Javascript

TypeScript

Python

C#

React.js

Next.js

React Native

Node.js

NestJS

Vue.js

Django

Microsoft ASP.NET

API development

JOSUE ACUNA

Senior Full Stack Developer

EXPERIENCE

Freelance Software Engineer

Upwork

Apr 2022 – Present

San Luis Potosi, SLP

- Delivered high-impact web and mobile applications for global clients, specializing in React.js, Next.js, React Native, Node.js, NestJS, AWS, Python, and AI/ML solutions.
- Collaborated with other developers to integrate multiple systems through APIs.
- Maintained databases by writing complex SQL queries and stored procedures.
- Developed code and design for software components in adherence with system requirements.
- Optimized software performance by identifying bottlenecks and implementing efficient algorithms and data structures.
- Implemented agile development practices across multiple projects, ensuring timely delivery of high-quality solutions within budget constraints.

Technologies: React.js, Next.js, React Native, Node.js, NestJS, AWS, Python, AI/ML, MySQL, PostgreSQL

Senior Full Stack Developer

IntelliCode

Oct 2024 – Apr 2025

San Luis Potosi, SLP

- Designed RESTful API endpoints with Swagger documentation.
- Developed scalable web applications using React.js, Next.js, Redux, Python, Django, FastAPI, AWS.
- Resolved cross-browser compatibility issues related to web page layouts.
- Configured authentication protocols including OAuth2, OpenID Connect, SAML 2.0.
- Mentored junior developers on best practices in software development.
- Worked with team of developers to add features, fix bugs, and make upgrades to existing applications.
- Established coding standards and conventions for team members to follow.

Technologies: React.js, Next.js, Redux, Python, Django, FastAPI, AWS, OAuth2, SAML 2.0

Full Stack Developer

iTexico

Nov 2018 – Feb 2022

Zapopan, Jalisco

- Built complex web applications using React.js, Next.js, Tailwind CSS, Python, Django.
- Contributed to migrating the app from Backbone to React.js.
- Worked in a team and developed a new UI framework based on a styled system, TypeScript, React.js, and Next.js.
- Developed and deployed a new searching mechanism that utilizes Elasticsearch and Kafka Streams and improves querying performance by up to 100x.

- Developed a mailing product that leverages AWS SES, S3, and SNS and allows a higher-level interface over a lower-level infrastructure.
- Utilized Agile methodology for project management activities such as sprint planning meetings.
- Collaborated with stakeholders to design user interfaces that provided intuitive navigation and enhanced user experience on various platforms.

Technologies: React.js, Next.js, Node.js, Express, Python, Django, GraphQL, MongoDB, AWS, TypeScript

Senior Developer

EPAM Systems

Sep 2016 – Oct 2018

Guadalajara, Jalisco

- Designed and implemented AWS network architecture supporting multiple workloads (web app, analytics pipeline, database) and environments.
- Built an internal use admin web application from scratch using React and AWS serverless backend (API Gateway, Lambda, and SQS).
- Implemented automated and event-driven cloud security controls in AWS using Cloudtrail, Cloudwatch, SNS, and Lambda.
- Integrated custom tools into a web application for batch data import, AWS S3 custom storage management, and analytics process launching.
- Discovered and implemented general AWS best practice cost savings actions.
- Deployed applications in a cloud environment using Kubernetes and Docker containers.
- Participated in Agile ceremonies such as daily standups, sprint planning meetings.

Technologies: React, Redux, Node.js, Express, HTML5, CSS3, Javascript, Webpack, Babel, NPM, Jest, Scrum, Gulp, AWS

Web Developer

Dextra Technologies

Jun 2014 – Aug 2016

Monterrey, Nuevo Leon

- Implemented systems to reduce the application's fragility, such as retry logic and bug fixes.
- Created clean, well-documented custom code and updates.
- Leveraged mastery of HTML, CSS, and JavaScript to build top-quality code.
- Maintained databases such as PostgreSQL or MongoDB for storing dynamic data used by websites.
- Augmented the existing API to add new functionality.
- Migrated an integration from one service to another by swapping out the implementation but maintaining all underlying working functionality.

Technologies: Node.js, JavaScript, Amazon Web Services (AWS), PostgreSQL, MongoDB, Microsoft SQL Server, HTML, CSS

EDUCATION

Bachelor of Science (BS) in Computer Science

Community University of San Luis Potosí

Jun 2012

San Luis Potosi, Mexico

Full stack development

Ironhack

Mexico, Mexico
